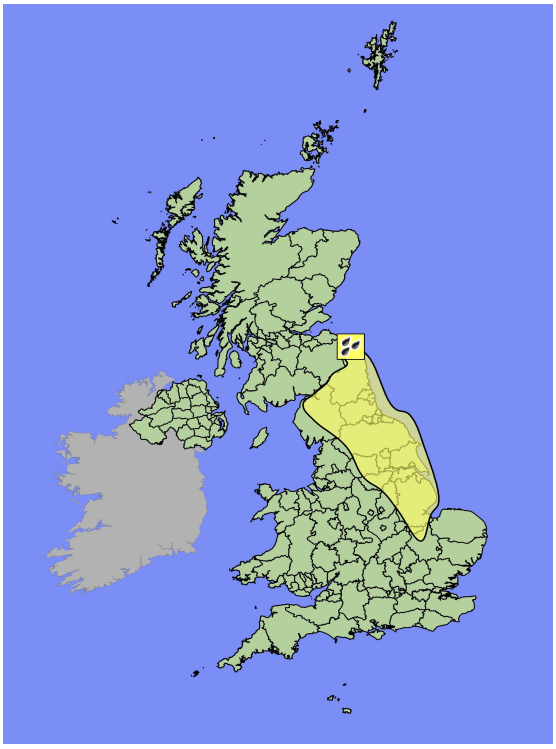
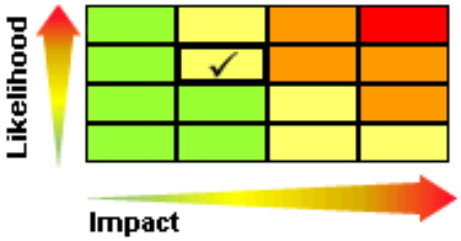
National Severe Weather Warning Service





Chief Forecasters Assessment
Showers are now developing across parts of northern England and the Midlands. These will become heavy across northern and eastern parts of England during the afternoon and evening, although areas north of The Wash are at greatest risk from slow moving downpours due to lighter winds. The heaviest showers will bring a risk of surface water flooding, especially where they fall over urbanised areas.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **11:00 on Tue, 19th Jul 2011** until **23:59 on Tue, 19th Jul 2011**

Slow moving heavy and thundery showers are likely to develop during Tuesday afternoon and evening across parts of northern and eastern England. These showers may give 10 to 20 mm of rain within an hour in a few places with a risk of 40 mm in less than 3 hours.
